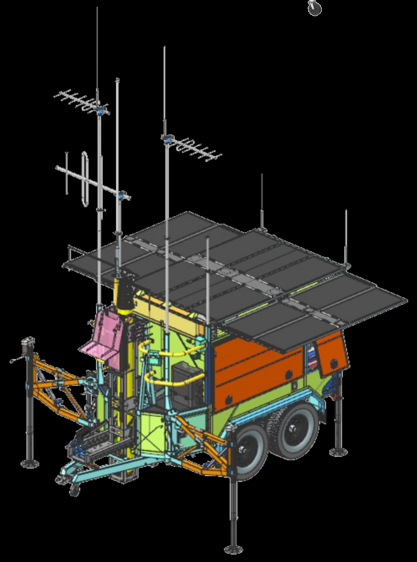
MODULAR OFF-ROAD RADIO FACILITY TRAILER

The IDES MORF trailer, is a modular, all-weather, self sustaining, off road capable platform, optimised to provide reliable & effective Communication capabilities while deployed in challenging environments.

IDES is a Melbourne based, 100% Australian owned, advanced product development and systems engineering company, specialising in the integration of mission and safety critical systems.

As Design Authority and Manufacturer of a variety of specialist vehicles & platforms, IDES can use its experience & know how in engineering, development and validation to integrate a range of systems to meet our customers needs as well as providing training, upgrades and through life support.

IDES
integrated design & engineering solutions



FEATURES:

- Integrated 15m Pneumatic Mast.
- On-board Solar, with Battery Storage & Back-up Generator.
- Interior Cooling System.
- Deployable by a Single Operator.
- Liftable by crane / helicopter.
- Weather & animal proof.
- Compliance with road transport regulations.
- Towable by typical commercial vehicle.

SPECIFICATIONS:

- Gross Mass: 3200 kg.
- Payload: 725 kg
- Battery: 20 kWh
- Length: 4.7 m (Transport config.)
- Width: 1.9 m (Transport config.)
- Height: 2.7 m (Transport config.)
